# LEAN THINKING AND NINTEX PROCESS MANAGER YELLOW BELT

## OVERVIEW

Lean thinking focuses on meeting customer requirements; eliminating errors and variation from products and services; and improving the efficiency of processes. Thrive35 uses an optimised set of Lean Six Sigma improvement tools to provide participants the skills to better leverage their investment in Nintex Process Manager to deliver rapid and sustainable improvement.

Many organisations have significantly improved their financial bottom line by implementing process improvement programs in conjunction with Nintex Process Manager. Lean Six Sigma is a proven concept and has saved millions of dollars for clients.

This course is designed for Promasters and Group Champions seeking to improve their Process Manager processes. Our approach teaches participants to identify and remove waste in Process Manager processes, minimise opportunities for errors and defects, implement controls and deliver desired outcomes.

Upon completion of the course and assessment tasks, all participants will be issued a Thrive35 Lean Thinking and Process Manager - Yellow Belt Certificate digital credential as a testament to their learning.
